

Metsä Pro FBB Bright

Crack-Resistant Packaging

Metsä Pro FBB Bright

High-quality, lightweight paper boards for premium quality printing and finishing

Nordic fibres are of the highest quality fresh fibre paperboard. They create an incredible level of performance consistency made from pure, safe and sustainable northern wood fibre. Metsä Pro FBB Bright's tough, multi-layered construction creates outstanding bulk with excellent runnability every time. Designed especially for packaging, Metsä Pro's lightweight construction allows a lower basis weight to be specified without loss of strength.

Press
