

SolviT Backlit Film

A Premium Polyester Lightbox Media

SolviT Backlit Film

SolviT Backlit Film sets a higher standard for premium quality lightbox media

With a proprietary coating, Backlit Film is designed for high ink saturation while reproducing sharp, vivid colours. The substrate's natural white shade supports warm tones while providing outstanding night or day image quality. Backlit Film's pure polyester base is anti-static, anti-curl (high stiffness), and high-heat resistant.
